

Type key

Example	TP	E	32	-160	/4	S	-U	-G	-A	-BUBE
Pump range										
Electronically speed-controlled pump series 1000/2000										
Nominal diameter of suction and discharge flanges (mm)										
Maximum head [dm]										
Pole number										
S = TPE Series 2000 (with factory-fitted differential pressure sensor)										
U = Nema motor dimensions										
G = ANSI or US flange										
Code for materials: A = Basic version Z = Bronze pump housing and motor stool										
Code for shaft seal (incl. other plastic and rubber components in the pump except the neck ring)										

Codes for shaft seal

Example	B	B	U	E
Grundfos type designation A = O-ring seal with fixed seal driver B = Rubber bellows seal D = O-ring seal, balanced G = Bellows seal with reduced seal faces R = O-ring seal with reduced seal faces				
Material of rotating face A = Carbon, antimony-impregnated B = Carbon, synthetic resin-impregnated Q = Silicon carbide U = Tungsten carbide				
Material of stationary seat B = Carbon, synthetic resin-impregnated Q = Silicon carbide U = Tungsten carbide				
Material of secondary seal E = EPDM V = FKM
